Provides for neighborhood district representatives to elect working committees the size of the current Assembly and Senate, 80 Assembly Members and 40 Senators. Gives working committees legislative power generally, and sole power to amend bills, but requires approval by appropriate vote of the full membership in each house for passage of any non-urgency bill. Reduces legislators' pay and expenditures.

Repeals provision in California Constitution stating California is an inseparable part of the United States and that the United States Constitution is the supreme law of the land. Places question of whether California should become a separate country on a future ballot. Treats result of such future vote as declaration of independence from the United States if 50 percent of registered voters participate and 55 percent of those voting approve. Requires Governor to request California admission to the United Nations if voters approve independence
