

COUNCIL FOR INTERNATIONAL TRADE

CALIFORNIA CHAMBER of COMMERCE

August 16, 2012

The Honorable Ron Kirk
US Trade Representative
Washington, DC 20005

VIA Electronic Submission

Dear Ambassador Kirk:

RE: Canada's Participation in the Proposed Trans-Pacific Partnership Trade Agreement

We, the undersigned companies and business organizations of the California Coalition for Free Trade, support Canada's participation in the proposed Trans-Pacific (TPP) Trade Agreement. As Canada and the U.S. are each other's largest export markets, allies and close partners on major global issues, we feel that Canadian participation in the TPP would only further enhance our bilateral relationship.

The California Coalition for Free Trade supports new countries joining the Trans Pacific Partnership as long as participants comply with current international norms and obligations, and commit to the high standards currently being negotiated for trade and investment, as well as, intellectual property protection and enforcement. Agreements like this ensure that the United States may continue to gain access to world markets, which will result in an improved economy and additional employment of Americans.

Currently, more than 8 million U.S. jobs depend on trade with Canada. North American economic recovery and growth depend on a strong trade relationship between Canada and the U.S., and Canada's inclusion in the TPP would create more opportunities for our companies and make us more competitive in Asian markets.

Furthermore, Canada is prepared to stand alongside the U.S. as one of the most ambitious countries in the TPP negotiations and they are committed to discussing all topics at the table.

The California Coalition for Free Trade was initiated in May of 2008 by the California Chamber of Commerce Council for International Trade. This group of California companies and business organizations believe that opening markets and promoting trade rules are critical for California's economy. The California Coalition for Free Trade is a broad-based group of companies and business organizations working to secure a national free trade agenda.

Page 2 of 3

California is one of the ten largest economies in the world with a gross state product of approximately \$1.9 trillion. International related commerce accounts for approximately one-quarter of the state's economy

The Asia-Pacific region is a key driver of global economic growth, representing nearly 60 percent of global GDP and roughly 50 percent of international trade. Since 1990, Asia-Pacific goods trade has increased by 300 percent, while global investment in the region has increased by over 400 percent. U.S. trade with Asian countries totals nearly \$1 trillion annually.

Even though U.S. exports to Asia continue to rise, the United States is gradually losing market share. Asian countries have negotiated more than 160 trade agreements among themselves, while the United States has signed only three with regional countries (Korea, Singapore and Australia).

Because of our location covering the majority of the west coast of the lower 48, California has much to gain with this Agreement. In 2011, California exported over \$14 billion to these select countries, roughly 13 percent of the United States' exports.

The Trans-Pacific Partnership Trade Agreement will bring real benefits for US workers and businesses and help maintain America's leadership position in an increasingly competitive global environment. The addition of Canada to the agreement will benefit those of us in California and the United States as a whole, and we thank you for your consideration of this important piece of legislation.

Sincerely,

The California Coalition for Free Trade
