

**Port Congestion
An Update**
District Export Council Southern California

April 21, 2021
1:00PM PDT

The District Export Council of Southern California is pleased to present an informative webinar addressing one of the most serious problems facing importers and exporters today. Port congestion is impacting trade flows on a wide basis, far from just the port terminals. This webinar features two of the region's most knowledgeable resources who confront the port congestion issues every day. The webinar will raise awareness of the causes, stakeholders, and impact and discuss simple actions that can be taken by stakeholders to address the problem.
