Chamber Positions

Overall, recognizing the current U.S. and California trade deficits, the California Chamber:

- **Supports** achieving and maintaining a stable and competitive relationship between the U.S. dollar and the currencies of our major trading partners.
- **Supports** actions designed to eliminate barriers that impede U.S. and California commerce domestically and abroad by aggressively negotiating fair and equitable market access for California agriculture, manufactured products and services.

California Coalition for Free Trade

The [**California Coalition for Free Trade**](#) is a broad-based group of companies and business organizations working to secure a national free trade agenda.

Legislative Issues

The California Chamber of Commerce has supported a number of state and federal programs, but it should be noted that the Chamber also dissuades the introduction of legislation that is unnecessary, unconstitutional or violates existing trade agreements. The Chamber:

- **Opposes** protectionist-oriented legislation that will result in higher prices to the consumer for the specific product protected and in limited choices of products for consumers. Protectionist legislation causes a net loss of jobs in related industries, retaliation by our trading partners, and violates provisions of the World Trade Organization, as well as, bilateral free trade agreements.
- **Opposes** state and local legislation that imposes sanctions on businesses that are engaged in trade with foreign countries and/or conflict with federal international policies.
- **Supports** legislation to allow California companies to compete more effectively in foreign markets, as well as to attract foreign business to California.
