

July 2022
MLIT, Japan

Invitation to the Japan Infrastructure Investment Forum

The Ministry of Land, Infrastructure, Transport and Tourism (MLIT), Japan, is happy to announce that the Japan Infrastructure Investment Forum will be held in San Francisco, California.

This time, MLIT, the United States Department of Transportation and California State will have presentations on their respective policies on the topics of decarbonization and utilization of digital technologies based on new infrastructure needs in response to changes in values due to climate change and Covid-19.

In addition, this forum will promote the participation of Japanese companies in specific projects in California State by introducing measures in the decarbonizing and digital fields and projects/technologies being utilized by Japanese and U.S. companies.

If you have interest towards this forum, we kindly ask for your registration via the link below. Due to seat limitations, we recommend you register as early as possible.

Haya Kenji
Councillor

*About the Japan Infrastructure Investment Forum

The first Japan Infrastructure Investment Forum was held in Washington, D.C. in January 2018, the second in Indianapolis, Indiana, in November of the same year, the third in Austin, Texas, in February 2020, and the fourth was held online in March 2021. Many people participated in the forum and shared Japan-U.S. expertise in infrastructure fields such as PPP and smart cities.
