Managing Risk and Cost in the Global Supply Chain: FOCUS ON FOREIGN TRADE ZONES

Companies coming out of the Covid era are facing new challenges in their global supply chains, what many are calling "The Great Reset". This in-person seminar will frame the issues and challenges and offer solutions and options to mitigate both risk and cost. Foreign Trade Zones are a great option in lowering landed costs; the seminar will provide a focus on the why's and how's of FTZ's.
