\*Must be a current CalChamber member to participate

California law requires all employers with five or more employees to provide two hours of **Sexual Harassment Prevention Training** to supervisors and one hour of training to all nonsupervisory employees. Help your members comply with state regulations to avoid penalties and fines.

CalChamber's **"The Road to Cybersecurity"** training course is an interactive, computer-based training designed to enhance understanding and awareness of cybersecurity practices. The course has users exploring cybersecurity scenarios in "day-in-the-life" fashion through various interactions. It equips participants with the skills needed to protect themselves and their organization from cyber threats.

*Learners can take their courses using their favorite devices – laptops, tablets, or smartphones. Courses can be taken in English or Spanish.*

California law requires **Workplace Violence Prevention Training** to meet strict, complex, and customizable standards. CalChamber's expertly designed course helps employers meet these requirements efficiently with an organized template and easy-to-use tools for tailoring the training to your specific workplace plan.

### Workplace Violence Prevention Toolkit

California's workplace violence prevention standards requires covered employers to comprehensively address workplace violence risks and incidents through a variety of measures, including developing and implementing a comprehensive Workplace Violence Prevention Plan; conducting workplace violence prevention training; identifying, evaluating and correcting workplace violence hazards; and maintaining various records
